

Gram Tracker

1. **“Gram Tracker”** is a tool that allows you to limit a customer’s purchase based on legal purchase limits and previous purchases within a specified time frame.
2. **“Gram Tracker”** is set up in two main places; **Adilas WP Shop “Configuration”** settings and **“Product Category”** settings.
 - a. Go to **Adilas WP Shop “Configuration”**.
 - b. Scroll down to **“Gram Tracker”**.
 - c. Enter the number of days to have the system look back for orders. Example: In Arizona this would be 14 days.
 - d. Scroll to the bottom of the page and select **“Save Changes”** to save the settings.

Gram Tracker

Additional settings are found in the category settings.
[Edit Categories](#)

Look Back Timeframe (in days)

- e. Next, navigate to **“Product Categories”**.
- f. For each **“Product Category”** that contains MJ, enter the fields listed below.
 - i. **“Category Weight Limit”** - Enter the weight limit for the category for **Gram Tracker** to reference when calculating purchase limits.
 - ii. **“Category Multiplier”** - If the category is multiplied by a concentration weight then enter the multiplier. This is the idea of dry weight equivalency. For example, a limit for edibles may be 28g of flower but the edible is made with concentrate so the weight of the edible must be multiplied by a state provided number in order to represent the true weight to the **gram tracker**.
- g. Select **“Update”** to save settings.

The description is not prominent by default; however, some themes may show it.

Adilas Category ID	<input type="text" value="3067"/>
Adilas Category Status	<input type="text" value="1"/>
Category Weight Limit	<input type="text" value="2"/> <small>Please don't add any letter in the field, just numbers. If left blank, the gram limit tracker for this category will not be considered.</small>
Category Multiplier	<input type="text" value="5.6"/>
Display type	<input type="text" value="Default"/>
Thumbnail	 <input type="button" value="Upload/Add image"/> <input type="button" value="Remove image"/>

3. Once set up, the “**Gram Tracker**” will notify a customer on the cart page that they have exceeded the limit and will not allow the order to be completed until edits are made.

No more than 70 grams of PrePacked - Flower. Please reduce your quantity by 7
You will not be able to checkout until the quantity in your cart is under the limit set by the state.

	Product	Price	Quantity	Total
	 7G Blue Dream	\$90.00	<input type="text" value="11"/>	\$990.00
